

Letter of Recommendation

February 13, 2009

To Whom It May Concern:

JGA recently completed The North Face store in Atlanta, GA using RTF Construction Co. as the General Contractor. Our client, The North Face, required us to choose a quality interior contractor for this project, and we chose RTF Construction Co. The project was completed on time, and is one of the best looking stores in their chain. Throughout the project, RTF Construction Co. contacted us with field problems that compromised the design. Working together as a team, we were able to redesign these areas with no interruption to the project schedule. Our client, The North Face, was pleased with the outcome of the project and spoke very highly of RTF Construction Co.

This was not our first project using RTF Construction, as they previously did work for us at the North Georgia Outlet Mall in Dawsonville, GA. We are planning new stores in the Atlanta area, and we look forward to working with RTF Construction Co. again. It is without hesitation that we recommend RTF Construction Co. for your next construction project.

Sincerely,

George Vojnovski | KN AIA |
